Comments by Note-Taker: Shivani will work on R dataset, Megha will work on Python dataset, and I will perform Weka dataset comments by Kuldip.

Shivani has issues in installation on ggplot2 in jupyter notebook. Megha has some programming error while implement code. I have figure out how to sort, filter and some more functions will how work., commented by Kuldip.

Kuldip almost performed all the task in weka and he has to be start to work on Report. Megha is done with all tasks and she's working on Visualization. And after that she's must work on Report.
